Customer Reviews

A simple book that can explain the very beginner of any age on how to start to play the guitar. I was well satisfied with the book. I would recommend it to any of my customers. Especially young customers that are just now getting their feet wet into music I'm playing the guitar. Thank you once again for providing such a great product

Awesome book with easy to understand lessons and a super simple layout. Couldn't recommend this book highly enough!

Not my favorite instructional book. It takes too long to start playing actual songs-- and the online support isn't great either. I'd look elsewhere-- and, in fact, did.

Learning to play instruments is a great way for kids to explore their creativity and learn to enjoy music on a deeper level. Love how it really breaks it down into simple and easily achieved steps.
