## Customer Reviews

My son is four and me and him have recently started playing minecraft together. We are pretty into it now and when he saw that I had some minecraft coloring books in the mail for him, he was soo excited!This book really has a lot to do, tons of pages to color and lots of activities in the back! The pages are nice and clear, plenty of stuff to color without it being overwhelming and too detailed. The ink on the page has not smudged at all, it's very clean and I used marker to test out the pages and there is no bleeding! I added a picture to prove it is alllll good to use marker. I didn't press down super hard but I made sure to color it in and did 3 layers of marker to I sword. When you look at the last 3 pictures I added, you will see the sword I colored, the next page, and that same next page held up in the light so you can see that it was indeed colored on the other side.I was super impressed by what this book had because I thought it was just coloring pages. There are 4 sections

to this book, the last section is a bonus section! For the price, you won't find a better book with so many options and activities. There is: Coloring pages Character cut outs that fold up Matching games Puzzles Word search Cross words Spot the difference Mazes Connect the dots Learn how to draw characters Etc... It's honestly the best activity book I have seen for a kid, and it's also fun for me to use with my son. I can see this being a fun at home activity, and an excellent way to keep a kid occupied during a road trip, long waits etc. I took lots of pictures so you could get an idea of what this book is all about, but honestly, the pictures are such a small part of what this book offers.
