This book is very cleverly laid out so that you can have hours of fun creating and reading about new and bizarre animals. Each page is split into three so that you can add a crocodiles head onto your beetles body and have a baboons bottom to go with it. I think adults will have just as much fun with it as children.

My 1st-4th grade students love this book. It has 3 columns of flaps from which the reader can create unique and wonderful new animals. A platypus head, a dinosaur body and a dog tail might create a platydinodog!

We got this as a Christmas present for our baby and loved it so much that decide to buy some for other babies and not so much :). It's beautiful, fun and at a great price!

really tiny but great book
