## Customer Reviews

This is a beautiful book with great illustrations, and well-bound hardcover. But it is not a serious songbook in that it contains only snippets of some songs' tablature, and not all the lyrics of others. I don't think it's meant as a "songbook" really, and it shouldn't have been called that. It's more like a reminder of all those wonderful songs out there in American culture. The illustrations are beautiful and, rather than having a spot at our piano, it will have a place on our coffee table as a reminder of why we like classic American songs.

This book would make a great gift for parents who want to introduce their children to American musical history or for teachers to use in their classrooms. Song lyrics mingle with bits of artistic pop

culture for a unique blend of music and art. Collectors of Americana and nostalgia will also enjoy looking through this book.

Gave this to all my grandchildren, who all love to sing, and their parents, to sing along as a family, and they all adored it! Plus, the illustrations are reproductions of wonderful American artist's work, very educational for the kids. What a great book!

Put together well. Nostalgic and patriotic. And you'll learn the real words that you usually end up humming!

I make customers sing patriotic songs for my Memorial Day sale at my garden center, and needed a new book with some interesting songs. This book is wonderful! Besides lots of interesting "Americana" songs, the illustrations are beautiful. Everyone loved the book.

I purchased this for my granddaughter who is just starting to take lessons on the piano. It is great for any age, and I was happy to see that the old tunes are no being swept away in the tide of history
