Cursive Handwriting Workbook: Funny Cursive Writing With Funny Illustrations (80 Pages)

Synopsis

****80 Pages **** of Handwriting Fun!--An 8 1/2 by 11 sized book, perfect for elementary students. Children love it because it is so much fun! Begins with the formation of cursive letters (upper and lower case). Includes number words, seasons, days of the week, and a bonus. So what's the bonus? This handwriting workbook includes funny cursive stories and funny coloring pages for each letter of the alphabet. The added coloring activity strengthens young hands, and helps students to achieve handwriting proficiency much faster. And the cursive stories help children learn how to READ CURSIVE writing. All while they're having fun! ****An excellent cursive writing book because the short stories engage students and motivate them to write sentences in cursive.****Also available--Printing Handwriting Workbook: Handwriting Workbook and Funny Sight Words Workbook. Same fun format!

Customer Reviews

This book has 84 pages that range from practicing solo letters, to the entire alphabet, to days of the weeks, months and more. Also included are short stories to copy and blank pages for your child to make up their own story, and illustrate with their own drawing! With most school districts cutting OUT cursive writing all together (SIGH the kids nowadays are SO short changed), it is SO important for parents to help their kids work on their cursive writing at home. This workbook is a fun way to complete a small amount of practice every other day, and help build up a child's confidence in writing in cursive. It is also effective for homeschoolers, wanting to use it to help teach the letters. I truly cannot believe you get SO many pages, for such and inexpensive cost. You could even buy 3

books and get a whole school year's worth of practice from them, by simply having your child think of new words to write for the stories (like changing blue to yellow, cow to dog, etc) and still keep the books relevant and your kids involved.. If there is one workbook you get for your kids, be sure to pick this one up and help your child learn the subject they are being short changed on! We can't recommend it enough!! I received this product for free for review, but all opinions are my own.

We are loving this work book, I have been copying the pages just so that we are able to do them more than once but I love how it starts off simple. My 3rd grader is no longer taught cursive in school, I completely do NOT agree with that choice we are decided that we would teach them to write it at home. After all- what happens when no one writes in cursive any more? How are they to sign their names? Or read historical documents? So this book is how we are doing it. It covers everything from the basics of the curves to how to hold your pencils correctly. This is well worth every penny! I will be buying this again for our younger children when the time comes for them to learn how to write in cursive as well. I can't rave enough great things about this work book!!!* I paid full price for this workbook, I wanted to disclose that since I do a lot of reviews.

I have to admit, I was quite shocked to learn that elementary schools are starting to do away with cursive handwriting in their teaching curriculum. I know when K was in 3rd grade, the teacher had name tags on their desk that were written in cursive and she practiced writing her name, but the one month she was in 4th grade at public school, I saw no indication of her trying it or learning it. Now that we homeschool, it was one thing that I wanted to be sure that she did learn and I wanted to be sure B had a chance to learn as well. When I found the opportunity to try this workbook, I jumped at the chance. We are new to homeschooling so I'm still learning the ropes and thought that a workbook to help with the cursive handwriting techniques would help me and help the kids. I am happy to report that I am right. The workbook provides the space to trace the letters as well as the lined spaces to practice them on their own " both lower case and upper case. After learning so many letters, they begin to practice putting letters together to form short words which lead up to longer words and sentences written in cursive. Each page allows for tracing and writing so that they can feel the way the letter or words are written and then practice it in the space on their own. Overall, I am incredibly pleased with the workbook and am happy that I purchased one for my son at the same time. I feel it is a great helping tool for them to learn their cursive handwriting.

This is a great workbook for extra practice and a great price. We watch youtube videos for

demonstration prior to each lesson. The workbook provides opportunities for kids to draw and color as they learn too. It has been a big hit at our house.

When I was in school, cursive writing was one of my favorite classes. Being that kids are not being taught cursive in school anymore, this is a perfect book for you to teach them at home. Cursive writing is so important for our kids to learn, They need to learn how to properly sign their name. This cursive book is easy to follow, has plenty of space for kids to practice writing the letters and has cute pictures that they can color. This cursive book teaches kids how to write cursive letters, numbers, sentences, days of the week and months of the year. At the back of the book, there are blank pages to practice on. I recommend this Cursive Book! I received this Cursive Book in exchange for my honest review. All opinions are my own.

This book teaches handwriting the old-fashioned way - working through the various strokes and reinforcing through repetition. It's great for beginners, but that's not what I purchased it. My kids have dyslexia and dysgraphia. My middle school child needed to improve her handwriting. This book really helped!
