Customer Reviews

My wife is Korean and found several errors on the flashcards. That being said, the example sentences were well chosen.

I'm VERY impressed with this as I actually bought this kit of myself. The little booklet that has little games to play, helped me teach myself how to read! I've had this kit for four days -YES DAYS- and I know how to read, write, and understand body parts, colors, numbers, and some common verbs! I have to admit, I was very motivated to learn Hangul and I have school, so I only really have a few hours to study my Korean but WOW! I didn't know an inch of Korean and soon I'm going to learn the structure of sentences! I'm amazed at how fascinating and easy the Korean language is. (My experience may be different from yours as I can fluently speak English, French, and Spanish, so I may have an advantage as far as experience, and similarities between the four languages; Hangul may just be easier compared to those three)

A few of the tracks are boring but in all, the speed in which the Korean is spoken helps me better understand and hear the correct pronunciation of words. So far so good; I have only listened to tracks 1-52.

Like the idea, but the mistakes on the flashcards are so confusing. :(Hope they come out with a corrected addition

These are wonderful

Got my package today and started to look at the flash cards and poster, i like it. But when I looked for c-d it was missing.

I love it . But to be honest I need to practice more...

THIS IS SO GREAT. I am learning so fast!!
