Bought for my 7 year old grandson as we could not find any Pokemon How to Draw books in our local stores. He wanted to draw these characters, so found them, of course, on . He does not want to put this book down and has already drawn every character in this book and given pics to everyone in the family. He absolutely loves these and would recommend to any beginner. It has all you need to draw. Erasers, pencils, pencil sharpener. crayons. poster to design and stickers to draw on to make your own. Also, a cute pencil/crayon zip up pouch with the pokemon figures on it and he loves it all. Would highly recommend. I have even had fun trying to attempt to draw some of these.

Well lets see.....I used to suck at drawing my favorite Pokemon to the point where I could only draw stick figures....Now I have this and I can draw my fav Pokemon with NO problems,WOOOHOOOO!!!(the teaching of art in schools needs a overhaul,don't you agree?)Good luck soon to be Poke drawers! This book will give you the tools needed to be a great artist and one more thing I learned from this:Don't ever give up,even on a bad drawing because that bad drawing could become a masterpiece you know.

I was really glad I got this for my 8 year old grandson. He loves to draw, and he loves Pokemon . He was really excited about getting a pencil case to hold every thing in. The book is really nice for that age group. It's not too difficult to draw the things in it. Very nice.

Got this as a present for my friend's 9 year old, he's been getting into drawing lately and he likes pokemon so I figured this would be the perfect x-mas present. He loved it, and I was impressed by how nice it was too. It has everything nicely packed inside, and it comes with an assortment of things for the aspiring little artist.

A lovely kit with great instructions on how to draw about 14 of the most popular pokemon. Also includes adorable kit with paper , erasers , pencils and sharpener. Really great gift for any young pokemon fan.

its alright...i did Expect a lil more for what i paid for but its a good start out for young kids so this'll be a late christmas gift ill be giving To a young kid i know the Drawing Guide only Has the Starter pokemon inside so Nothing Really huge or major Again as i stated This is more for a Gift for young kids

My 10 year old son loved this gift because now he can draw most of his favorite PokÃ©mon. Great gift.

My son loves this! The book is easy to follow with just a few steps for each Pokemon and how to draw them. My son very quickly started drawing and it wasn't too hard for him to get cute little pokemon drawing done and up on the wall. He is 6 and this is a perfect age for this kit. I think maybe up to 10 years old. The pencils and erasers were really nice and didn't seem like cheap ones

at all.
