What Happens Next? Picture Sequencing Educational Board Game

Synopsis

What Happens Next? is a fun, picture sequencing game designed to help build visual discrimination and sequence skills. Only the right pieces fit together as young learners acquire an understanding of logical order--a perfect tool for this pre-reading skill! The set contains (14) 3-piece puzzles and directions in English and Spanish.

ISBN-13: 978-1609962715

Product Dimensions: 2 x 8 x 9.5 inches

Shipping Weight: 1.3 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (20 customer reviews)

Best Sellers Rank: #31,073 in Books (See Top 100 in Books) #47 in [Books > Children's Books > Activities, Crafts & Games > Games > Puzzles](#) #64 in [Books > Children's Books > Early Learning > Basic Concepts > Alphabet](#) #111 in [Books > Children's Books > Early Learning > Basic Concepts > Counting](#)

Age Range: 3 - 6 years

Grade Level: Preschool - 1

Customer Reviews

I bought this to help with my son's speech therapy. He tends to stammer when he has to make up a story when there's no words on the page. That's why I choose this one because it doesn't have words so it forces him to find his own way to explain what is in the picture. I would recommend this game.

Colorful cute puzzles. Only down side is once they are all separated it takes awhile to dig through to find the three pieces that go together. But definitely worth it to teach the concept. And lots of different ideas from seasons, to actions, and animals make it fun for the little guys.

I purchased this for my 3 year old nephew and he really seems to enjoy the pictures. The concept was easy for him to grasp and while he's learning, he just thinks it's a game. I would recommend for

anyone looking to improve or expand a little one's vocabulary or story-telling skills.

I like this product. It's a great way to introduce new words and to teach Spanish. There are enough cards to keep it interesting. Overall I'd say it's a nice educational tool, though I wish there were more cards.

My three year old loves this puzzle. It's a nice activity we can do together and I feel like he's learning beyond the puzzle itself. Great buy!

I used this with my speech therapy clients. Perfect for ages 4-6 who need visuals to construct sentences or answer questions.

The kids love it so they play it like a game, learning in the process! Highly recommend. Ages 3 and 4.

I love it! Kids love it! It promotes learning and skill!
