Customer Reviews

My son loved several of the other books in this series, and so I got this one without giving it much thought. I was disappointed because the Incredibles page has several people shooting one another. I found it very inappropriate for my 2 year old. :(

Anything that can keep my 2 year-old son's interest for long periods of time and for several months is a winner in my book! This book has pages for: Toy Story, Finding Nemo, Monster's Inc, A Bug's Life, Toy Story 2, The Incredibles and Cars. It is very high quality with a cushioned cardboard cover and nice thick board book pages, so it has been durable and stood up to my son's "tough love." My son will sit and find all items in the whole book. Several months later he still brings it to us to do with him. He quickly learned the point and can identify all items, and still loves it. There are advanced activities that are great and we are just starting them. I recommend this book, you will love the big bright pages, super quality and your child will love this activity around characters and stories they already know. The price is absolutely on for the quality of these books.

My 4 year old got this when he was 3 and he loves it. We had another kind of these books and this one is easier to find the items but at the end of the book are what he calls games and he just loves

looking at each page to see what he can find. Good for educational purposes I would highly recommend for toddlers.

Bought this book for my son when he was 2. He loved sitting down with me, looking at it and finding the pictures. I liked the way he could interact with me. We really enjoyed it. Wouldn't recommend for kids over the age of 4.

It's a beautiful book. We purchased it for our grandson. He was around 3 1/2 years old. He has other "Find" books that are harder to search out. I think this one was just a little too easy for him. I would highly recommend it for under 3 years old though.
