Customer Reviews

My son loves Spongebob so this book was his favorite! He loved finding all the silly things and read this book over and over.

My son really liked this book. He liked finding all of the different objects. I think it is a bit easy or maybe they should lower the age. My son was 3 when we got this book and there were only a few items he needed help finding.

It did take a couple of weeks for the book to arrive; however, the book was in great condition and matched the description well. I had no issues or problems with the product or seller.
