**Customer Reviews**

Spiderman - The Ultimate Guide is a very thorough and informative book. New fans of comics and people who know little about Peter Parker and his alter-ego Spiderman will find this an enjoyable read and will leave it with a strong knowledge of the 30+ year history of the character. The book covers everything from Spidey’s origin and powers to his supporting cast including Aunt May, J. Jonah Jameson, Mary Jane, and plenty more. Key points in Spiderman’s adventures are also covered including: the Death of Gwen Stacy, the Alien Costume, the mystery of the Hobgoblin, and
the Clone Saga. Villains and vigilantes are also reviewed like: Green Goblin, The Vulture, Sandman, Electro, Venom, Carnage, and several minor characters that you might not expect to see included in a 170 page book. The Ultimate Guide also mentions alternate creations of Spiderman like Spiderman 2099 and The Ultimate Spiderman (my personal favorite). If DeFalco's Guide does have a weak spot it's that many entries have captions and paragraphs that simply reiterate the same material. With two pages of information on a character this can become annoying to read the same fact three times in such a short space. Also a personal gripe of mine is that sometimes laughable characters like The Rocket Racer were included while a more common classic villain like The Shocker was overlooked. Instead of pages devoted to Will O The Wisp and Silvermane, I would have much rather preferred a more indepth look at some of the runs of Spiderman stories and the various plots they dealt with...alas maybe in Ultimate Guide #2 (hint). All in all I recommend this book for anyone who wants to learn about the incredible character of Spiderman before the movie premieres on May 3, 2002.

This the most comprehensive look at Spider-Man out there. There are a lot of books out now about Spider-Man the Movie, but this is Spider-Man the comicbooks. The comicbooks give you a real sense of the charater and this book takes you into every aspect of the adventures of the webslinger. Covering the major points in the Spider-Man mythos, it captures great moments from the introduction of Venom to the not so popular Clone Saga. All villains and supporting cast members are covered. From the Green Goblin to the Prowler (One of my personal favorites). From Aunt May to Debra Witman. This book has it all. From the large format of the book with incredible pictures and great text. Tom DeFalco did a great job, and he is a Spidey expert. This even has references to the individual issues where the major events took place. Recomended highly for fans of the Comics and especially the Movie.

I have been a rabid Spider-Man fan, reader, and collector for the past 13 years. In that time, I've seen some of the best (1980’s to 1993) and worst (Clone Saga) this hero has to offer. IN addition, I have collected every issue ever published. So, I’m very knowledgable about SPider-Man and his world. Still, this book is a delight to read. I didn't learn anything new, but it is well written, spectacularly illustrated with original comic art from some of Spidey’s most legendary artists (Ditko, Romita Sr., Romita Jr., Frenz, Andru, Sal Buscema, Gil Kane, McFarlane, Bagley, Larsen). New fans will learn a lot from this book, but no matter how long you've been a fan of Spidey, this book is a treasure trove for you!!
Tom De Falco’s comprehensive SPIDER-MAN guide is one of my favourite spidey books, covering everything from the comic's origins in the 60s to the recent movies. With some great insight into the characters in the world of comics and good layout, this guide tells you all you need to know about Peter Parker, Mary Jane and assortment of villains (Green Goblin, Doc Ock, Venom et al). DeFalco’s extensive research has paid off, making this an essential addition to the already bookshelf-breaking collection of comic book guides. This is a must-have book for any SPIDER-MAN enthusiast.

This is a great overall Spiderman book that talks about things from origins to various character in the Spidey universe, I had it when I was growing up and loved the info and graphics. Not sure where that one went but I have wanted to rebuy it since. Great price, very speedy delivery (like a couple weeks ahead of the scheduled date!), and other than the front color having some minor discoloration it was in perfect shape.

We bought this book for our five year old who loves Spiderman, but our whole family has enjoyed learning more about the villains and other characters in Spidey's world. It is fun to learn the origin of characters we are familiar with and some we had never heard of before. There are lots and lots of illustrations to keep the kids’ attention, and the stories and bios are interesting enough for adults as well. The binding has fallen apart on our book- which may have survived better under normal wear and tear- but that is mostly because my son takes it to bed with him since he loves this book so much. Overall, a great book for kids and adults too.

I have been a rabid Spider-Man fan, reader, and collector for the past 13 years. In that time, I've seen some of the best (1980’s to 1993) and worst (Clone Saga) this hero has to offer.
