I purchase them every year for the last 12 years (a bit late this year). And share with my girls as well and two friends. We track our cycles and follow the moon cycles. Makes for an interesting family ritual and they have medically come in handy as a record. Love 'em!

Just what I expected, I have one in my office, my bedroom and the kitchen which I love having a snapshot of not only the lunar cycles but it works as a calendar too! Plus, I have two more I can give away!

I LOVE the format BUT ... (please correct me if I am mistaken) am reluctant to make the purchase as the calender appears to be wrong - It looks like the first of January 2016 is a Monday (when I am pretty sure it is a Friday) and in addition it is missing 29th of February (again I'm pretty sure 2016 is a leap year). I would be really interested if these issues were corrected???

I have loved these calendars for a long time. I keep 2014 and 2015 posted above 2016 so that I can appreciate the beautiful pattern that moon cycles create. I love to give them. Everyone loves to get them.

The dates don't line up to the right day of week
