# Choppers! (Step Into Reading)

## Synopsis

Helicopters are amazing machines that go places and do things that other vehicles cannot. Readers will love learning about the many daring jobs and rescues they undertake every day. Chock full of exciting color photographs, too! Susan E. Goodman is a writer and journalist. Michael Doolittle is a photographer and photo editor. Together they have collaborated on many children's books, including beginning readers and the Ultimate Field Trip series. Susan lives in Boston; Michael lives in Connecticut.

## Customer Reviews

These are great books for children learning to read and for children who don't like to read "long" books. Also these books have a ton of information in them that keep my children interested on reading to the next page. I find that my children will read these books over and over again.

Another terrific Book, Choppers! (Step into Reading) purchased from one of my shops...This was a gift to one of my grandsons and he was so excited to receive it.He is into flight machines.

My 5 year old son checked this book out from his school library. He enjoyed it so much that he kept

checking it out so I went ahead and purchased it for him. Great book for a kid who loves choppers.

I purchased this book and the book on submarines for my grandson. He is into military stuff. He is a very good reader, but prefers playing video games, so I thought this would interest him and give him something to read. He did enjoy reading and it had great pictures.

My son loves these books and his reading skills are way above his classmates... Plenty of titles to choose from. Ships fast.

Gives the reader insight of how helicopters are useful. From search and rescue to extinguishing forest fires, not to mention their military function.

I got this for my 4 year old and the story is a bit much for him. I think this would be an awesome book for him in a couple years. Nice pictures.

Great story line and informative pages on helicopters! Awesome pictures!
