Customer Reviews

Every Aviation Enthusiast will love this book! This is a book about Jet Fighters, shown through illustrations to color and 2 paragraph summaries including the history of each plane. This book brings 3 generations together at my house! Grandpa, Dad and Grandsons all love this book. A Fighter Jet is designed for air-to-air combat, with its main purpose being to establish Air superiority over a battlefield. Fighters are designed for speed, maneuverability, and a smaller size than other

combat aircraft. Of all airplanes these planes invoke the most drama and romance. The skill and courage of Jet Fighter pilots have been the foundation for many top selling movies and numerous books.1. 44 Jet Fighter Illustrations are printed front and back of each page, on heavy weight, bright white paper2. Each illustration includes a 2 paragraph write up of the history of that Jet Fighter3. Crayons or color or water color pencils will work with this book, or a combination maybe gel pens for the planes and colored pencils for the sky, the sky area is large so would use a lot of ink.
