Customer Reviews

Great story, however Little Zebra's hair falls off. My six month old puts everything in his mouth and as soon as he sees something it goes to his mouth. Tone down the hair. Also it's difficult to get through the hole...cumbersome.

I bought several of these puppet finger books and they were a great hit with everyone at the party and they were all adults! So im sure once baby arrived he too will love them, so much fun to play with!!

This is the only puppet book we have (so far!) but I looked at several in a real store before getting this one (I like supporting little stores when I can). The story line is cute about how she doesn't mind the rain because it's like taking a bath and there are several "actions" the puppet can do like eat,

drink and look at clouds. The zebra has crazy black hair and is really very cute in person, even though I wasn't particularly looking for a zebra. She has a little bird friend that follows her around too. We love this book!!!

cute book until my son figured out that there was a hole in the back to put your finger through. he still loves it, but now just plays with poking the puppet in and out.

My kids both loved these books. They are great for older babies and younger toddlers. This storyline is decent, but it is more about the interaction anyway.
