Little Tug

Synopsis

Little Tug may not be very tall or very fast, but when the big ships in the harbor need help, they know they can count on him to be there with a push, a pull, and a ride to safety. But what happens when Little Tug gets tired? This simple, endearing book with a charming retro feel and an emotional punch is the first book for Roaring Brook Press by the acclaimed author of *Polar Bear Night* (New York Times Best Illustrated book) and *Where's Walrus?*

Age Range: 2 - 6 years

Grade Level: Preschool - 1

Customer Reviews

I bought this as a gift for my nephews who are 2 and 5 and they love it. It is a cute little book with beautiful illustrations. If your child is into boats it is a great gift. The story line is very simple with only a few words per page. The five year old liked it because he is learning to read and could recognize some of the words. The 2 year old liked it because of the pictures and all the cool boats. It has a great message and is about getting the little tug boat (your kids) to sleep after a hard day's work. Good for any tired parent who wants their kids to go to bed!

Such a sweet book with a great message. The illustrations are gorgeous and it's hands down my 3 year old's favorite book. Let's just put it this way, I've read it approximately 30 times and we've only

had it for about 2 weeks.

This is the second Stephen Savage book that I bought my grandson. This and Super Truck are perfect for the 2-3 year old who is starting to memorize a story line. The sentences on each page are short and simple and the illustrations are very engaging. As a grandma and a retired primary teacher I highly recommend this book.

Bought this book for our preemie son (he's not he biggest baby, he's not he fastest baby - read the book and you'll get the reference :). It's an instant hit - we love the message, illustrations, etc. we read it every night!

By far my son's favorite book. At 10 months he still thinks its the funniest thing, and it's the first thing he grabs out of a stack of favorable books. If only it came in a board book!!! :(he's torn this one to pieces... will probably try the kindle version. Also, wish there we more? My kid just loves this so much.

This book has beautiful pictures, a simple story, with sweet ending. My Preschool class loved it. I would recommend this book for Teachers and Parents. service was also great as usual. I am a satisfied customer.

Little Tug was a big hit for my toddler story time crowds. At only one line of text per page, and bold, simple illustrations, this one snagged the attention of all my little transportation fans. It includes boats ranging from a sailboat to an ocean liner, and describes the activities of a tug boat in simple language that even the youngest story listener can understand. The illustrations add a charming personality to our little Tug, and the ending puts a nice cozy cap on this short little tale. This is a natural for bedtime, and a must have for story time leaders wishing to add to their toddler collections. An enthusiastic recommend.

I picked up this book at the recommendation of our librarian, it is beautifully illustrated, clean graphic images perfect for the toddler set and actually quite very pleasant to look at as an adult. There is not too much to deal with on each page. Our daughter loves the book and we easily read it five times a day. She names each of the boats for a member of the family, her dad is the tall ship, her cousin is the speed boat, I'm the cruise ship that gives hugs - and she is Little Tug. We love this book, we

highly recommend it and hope this is the first in a series.
