Overall, a good workbook for preschoolers. More expensive than other letter-tracing books, but worth the price based on being a Sylvan product, paper quality, and perforated pages. Workbook features 1/2 inch traceable letters, 1 inch apart - nice size and spacing for beginner writers. However, each letter has only four samples to trace. We purchased Kindergarten writing paper for

additional practice. offers several loose leaf and tablet options. Page Per Day presents UPPERCASE letters first, then lowercase letters. Uppercase letters are typically taught first, as straight lines are easier to recognize and write. Other methodologies teach lowercase letters first, considering 95 percent of text is lowercase. Another approach is combination/or matching - "A" and "a". Either method is supported with easy tear-out pages.*As another reviewer mentioned, a "b" is mistakenly added to the page featuring "d" -- see attached image.

The activities are appropriate, simple and easy to guide new learners through. The print is clean and professional, which I appreciate. There IS a typo on the Lowercase D page (showing a 'b' instead of a 'd' as other reviewers have mentioned as far back as a year ago. You'd think Sylvan Learning would've corrected this immediately!) My biggest complaint is that it is hard to get the pages out. The perforations are horrendous and multiple pages tore, despite my careful attempts at a clean extraction. I find this very frustrating, as I like to scan the pages before they're used so I have back-ups for further reinforcement learning. While I like the books, I cannot say with confidence that I would purchase these again. I would look for other workbooks first, that (hopefully) tear more cleanly.

Bought for my learning disabled sister, would recommend it to anyone with a child just starting to learn letters and I like that it was simple enough for children to understand when given direction.

Nice book. But my son's book had a big typo one. Of the D's on the lower case d's page was a (b). For a sylvan learning product that's pretty big mistake. page (34) wish I could include a picture

I like the idea of being able to tear the pages out so it is easier for a little one to work on. Only problem I have found is that there isn't enough space for more practice.

It's a wonderful reinforcement and review sheet. I have used it with my children who need the extra support for learning their letters this years!

My pre-K son is liking his new book very much. Was pretty much what I expected, so it was a good purchase.

Not much content but our daughter loves it.
