Customer Reviews

This is one of the few books that my one year old will sit still for. He loves lifting the flaps and looking at the different parts of the body and I love the adorable rhymes and illustrations. You'll want to supervise your little one when they read/play with this book-- the flap are easy to tear!

my toddler prefers where is baby's belly button, which also has slightly larger flaps, but this "lap size" larger version is a fun book.

My 2 year old LOVES this book. He points to body parts and says their names.

Excellent book to have and to read to you kids.
