Customer Reviews

When I received my QUILTER'S BLOCK-A-DAY CALENDAR, I WAS THRILLED! It gave me a way to spend a few minutes a day creating one quilt block. I thought it couldn't get any better. Well, I was WRONG!! I found the QUILTER'S BLOCK-A-DAY CALENDAR COMPANION CD. Now I have all those wonderful blocks on my computer. I can print out the block as is or I can take the block into my graphics program and plot out a whole new quilt! I can turn the blocks and color the squares and triangles and sashing to see what I can create. Not only do you get 365 blocks but you get them in two different block sizes. One would think this would be enough for the price of \$12.95. The author doesn't stop there. She also gives you 12 quilts patterns with step-by-step instructions and all the appliqué templates needed. The CD runs on a PC or MAC. You only need Adobe Acrobat Reader 5.0 or higher to access it. An Internet connection is NOT needed. I planned to keep the calendar

when 2007 was over. Now I have an even better reason to do so. With the calendar and the CD, I will be busy making quilts for many months to come!

Did not know what to expect when I ordered this CD. I have found the CD easy to use. Two positive aspects of the CD are (1) two sizes given for each quilt block and (2) the diagram showing what you can expect if you combine 4 or more blocks to make a quilt. Would definitely recommend you consider purchasing the CD if you are considering purchasing the Quilter's Block-A-Day calendar.

I like being able to print out the patterns from this CD. You could print on freezer paper, or water soluble foundation paper and not worry about accuracy. This is so handy, easy to use, and you do not even necessarily need the calendar as well.

Absolutely love this. I'm a newbie to quilting and this is a perfect learning tool for me. Yes I would recommend this calendar and companion CD to new and advanced quilters. A great gift for quilters in your family

I was going to buy the paper version of this calendar, but I bought this version because a review said that she likes the cd version because she can print it out. so I bought the cd and really like it
