Before I gave this book to my friends son, I looked through it and it is a very cute book. Kids need nice books like this to add to their growing up process. It reminds my of the old Disney book I read as a child, good memories for the next generation!! Triceratops is his favorite dino also!!

My son loves Dinosaur Train, well at least the episodes he knows or if I watch it with him. He loves this book and wants me to read it to him every night. Being two, I don't deny him this pleasure. After reading it for what seems like a 100 times, I am quite sick of this book. If one has a young son that is into all things dinosaurs, then this book will probably be a hit.

If you want to teach your child about herbivore, omnivore and carnivore relationships, this is a great little golden book. My daughter adores Dinosaurs, and loves to pull this one off of the shelf for story time.

This is a cute and colorful little children's books. It is just like some of the little books I used to have that were popular in the late eighties and early nineties... and I guess now probably too! My 2 year old niece likes it a lot.

My grandson is a big fan of Dinosaur Train and he loved the book. He kept asking me where I got it and how I found something so fantastic. He is three so many things amaze him.

My 3 year old grandson gets to watch a limited amount of tv at gram's but he does enjoy Dinosaur Train. I like it because it does not talk down to children and it presents facts that even I did not know. Yet, right now it is difficult to find things to buy for him related to this show. I had to buy an iron on patch to make him a DT shirt. We had watched the episode represented by this book the every day it arrived. He corrected my pronunciation of the species names as I read it to him! Cute book for fans of the show. Of course, I bought Little Golden Books for his mommy many years ago too.

This book was a great book for the price. I have been a fan of the Little Golden Books since I was a child. Bought to go with the Dinosaur train gift set for a 4 yr. old birthday present.

Just what you've come to expect from a Little Golden Book - a fun story written using well-chosen, basic words that are just the right size for a little one to "sound out".
