My son opened on Christmas and made pancakes. The recipe called for 2 cups of milk to 1.5 cups of flour. I've made a lot of pancakes in my life - this seemed a bit off, but hey, it's Williams & Sonoma. What a disaster! Runny, goopy, horrible mess. Clearly this is a misprint. I may come back after some more recipes are attempted to revise this review. On the positive side, the format of the book is nice and the instructions are good for a 10 year old.

My 8.5 yr old daughter loves this book and has gotten her 11 yr old competitive brother interested in cooking as well. They have made many recipes from the book and most have come out great. I'm usually there to give her some assistance but she makes them on her own. The directions are pretty easy to follow and there are pictures of each recipe.

Was not sure after reading mixed reviews. After reviewing other kids cookbooks this seemed to have the best. I would recommend for any age. Super cute and delicious looking meals. It has everything sectioned off from breakfast, lunch, snacks, sweets. Easy for my nephew to cook with he is 15.

I gave this to my six year old granddaughter for Christmas. We have made chocolate covered fruit, pretzels and graham crackers. My grandson and I made an apple pie together and he is nine and loves to cook. This has great content and excellent pictures to go with it.

Beautiful book. Nice graphics. Made the vegetable dip. Quite good. Recipes use loads of butter and require quite a bit of prep. Recipe may show two steps but this does not include the chopping, peeling, etc. Read through recipe before your child gets started! Buttermilk pancake mix was very thin. It appears the amount of buttermilk required is too large for the amount of dry ingredients. I would guess it's a typo. I threw the mess away.

My 12 year old daughter loves this cookbook. It is straightforward, great instructions, and helps her with her more creative side. It is far from a Kids cookbook, and is easily read with good techniques and plenty to make. 100% recommend this for your aspiring chef.

I bought this Kids' cookbook not only because I love Williams-Sonoma, but my 8 year old daughter showing an interest in cooking, wanted it from a book fair. We have made a several recipes together, which we enjoyed eating, and cant wait to make again! The recipes are simple, easy for kids and adults. (Slow cooker meals are easy too, but kids dont have as much fun!) The best thing about it is that we are spending time preparing AND eating the meals together!
