Customer Reviews

I bought a few books in this series for my 3-year old son. I'm pleased; and so is he. Each two-page spread features a different type of tractor and how it is used. There is a main picture of the piece of equipment and smaller pictures showing the piece at work. There are also facts about the particular machine scattered on the two page spread. There are 11 stickers. The stickers are nice quality - they stick well, and yet they come off my furniture without residue. There are no specific places in the book to place the stickers - meaning, there are no "create a scene" pages. I purchased these books (tractors, diggers, trucks, emergency vehicles) as "treats" for my son when he has a doctor appointment or as a prize for good behavior. They served this purpose well. (The emergency vehicles book has 10 stickers; I think you can assume there are 10-11 stickers per each book in this series; they are all the same basic format.)

My soon-to-be 3 grandson loves these books. If it has wheels and is some kind of big vehicle, he

wants to know all about it. Great for expanding vocabulary. At 2 1/2 he knew what "stabilizers" are on large trucks with vertical extension devices.
