Oh, The Places You'll Go!

Synopsis

Dr. Seuss's wonderfully wise *Oh, the Places You'll Go!* is the perfect send-off for grads—from nursery school, high school, college, and beyond! From soaring to high heights and seeing great sights to being left in a Lurch on a prickly perch, Dr. Seuss addresses life's ups and downs with his trademark humorous verse and illustrations, while encouraging readers to find the success that lies within. In a starred review, *Booklist* notes, "Seuss's message is simple but never sappy: life may be a 'Great Balancing Act,' but through it all 'There's fun to be done.' • A perennial favorite and a perfect gift for anyone starting a new phase in their life!

Book Information

Lexile Measure: AD600L (What's this?)

Hardcover: 56 pages

Publisher: Random House (January 22, 1990)

Language: English

ISBN-10: 0679805273

ISBN-13: 978-0679805274

Product Dimensions: 8.4 x 0.3 x 11.3 inches

Shipping Weight: 14.4 ounces (View shipping rates and policies)

Average Customer Review: 4.9 out of 5 stars [See all reviews](#) (3,194 customer reviews)

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

Researchers constantly find that reading to children is valuable in a variety of ways, not least of which are instilling a love of reading and improved reading skills. With better parent-child bonding from reading, your child will also be more emotionally secure and able to relate better to others. Intellectual performance will expand as well. Spending time together watching television fails as a substitute. To help other parents apply this advice, as a parent of four I consulted an expert, our youngest child, and asked her to share with me her favorite books that were read to her as a young child. *Oh, the Places You'll Go!* was one of her picks. This book describes a future filled with unlimited potential ('you can steer any direction you choose'), success ('you'll pass the whole gang

and you'll soon take the lead'), set-backs ('you can get all hung up on a prickly perch'), and overcoming obstacles ('somehow you'll escape all that waiting and staying'). Many will mischaracterize this book. Since it starts with the words, 'Congratulations! Today is your day.', some will see it only in the context of some special event. At one level, it could certainly be a graduation present for a high school or college grad. At another level, it can be given to those who are moving on from one school to another. You can also see it as a gift for any transition, even if from one grade to the next. But, I think that the more important application of this book is in setting a standard of parental beliefs for your child about one's child's future life. Psychologists in book after book tell us that parents tend not to be supportive enough, and that teenagers and adult children feel that they have never lived up to their parents' standards.
