Independent Dames: What You Never Knew About The Women And Girls Of The American Revolution

Synopsis

Listen up! You've all heard about the great men who led and fought during the American Revolution; but did you know that the guys only make up part of the story? What about the women? The girls? The dames? Didn't they play a part? Of course they did, and with page after page of superbly researched information and thoughtfully detailed illustrations, acclaimed novelist and picture-book author Laurie Halse Anderson and charismatic illustrator Matt Faulkner prove the case in this entertaining, informative, and long overdue homage to those independent dames!

Book Information

Lexile Measure: 930 (What's this?)

Hardcover: 40 pages

Publisher: Simon & Schuster Books for Young Readers; First Edition edition (June 3, 2008)

Language: English

ISBN-10: 0689858086

ISBN-13: 978-0689858086

Product Dimensions: 11 x 0.5 x 10 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (11 customer reviews)

Age Range: 6 - 10 years

Grade Level: 1 - 5

Customer Reviews

First of all, on the very first spread there's a little glossary of 'Who's Who' which I think will be extremely helpful for youngsters (heck, even for adults!). Some terms include: Militia, Patriots, Loyalists and Parliament. A timeline follows which goes throughout the rest of the book. I love the continuity of facts in the timeline which can be read at the same time as the "fun" part of the book, or separately. It really depends on the reader and how much they want to know! I read them at the same time, which was interesting, but I think that the intended audience of this one might enjoy the illustrated text first, then go back and read the timeline (or vice versa) as you lose a bit of the continuity of the story going back and forth. Most people probably think women didn't help all that

much during the Revolution, or do things other than sew and nurse. They'd probably be quite surprised to know that there were women who dressed as men to become soldiers and that many were spies! They also took over family farms or even became blacksmiths if their husbands had died! Generally speaking, I like the illustrations, but there's something about them that just bothers me a little bit. While I think they're fun and probably attractive to children, the added dialogue boxes don't always work for me, nor do the faces of the women. They aren't caricatures by any means, but that's what they remind me of. Granted, finding out what some of these women looked like may have proved difficult, but I think because of the seriousness of their contributions they could have been treated a little more respectfully.
