## Customer Reviews

He loves Cars. He likes to color. He likes stickers. He's happy with the book! The best part is that the pages are perforated for easy removal which he appreciates... it's always nice to have one hundred Cars pictures on the fridge.

This follows along with the storyline of the movie & even though it's smaller than some other books I've gotten (which I knew from the description) it's easily a top three coloring book for my son. I always look through books before buying but it's hard online.... But I also can't find Cars books in stores so I'm glad we liked it so much. :)

• The Fast Lane (Disney/Pixar Cars) (Super Coloring Book) • is an excellent choice for those children whose favorite Disney/Pixar character is Lightning McQueen, and who loves the other vehicular residents of Radiator Springs equally well. If you can identify any • Cars • character,

without prompting, you know a child in this category who needs this coloring book! Pictures are simple enough for younger artists, but sufficiently detailed so that older children will not find this coloring book babyish. Well-done illustrations, most suitable for coloring with crayons or colored pencils, are featured in this coloring book. Printed on paper typically used for coloring books, The Fast Lane does not work well with markers or watercolor paints; both mediums tend to feather. Pages in this coloring book are perforated for easy removal; there are pictures on both sides of a page. Stickers are the pièce de résistance for children enamored with Cars. The Fast Lane (Disney/Pixar Cars) (Super Coloring Book) is everything the Cars fanatic could desire in a coloring book.

PERFECT FOR THE SMALL CARS FAN ARTIST! The pictures are almost all of cars from the movie. Some of the scenes in the pictures are new scenes, but with characters any fan of the movie will recognize. So it's a true 'Cars' coloring book, not something generic. Personally I dislike when a coloring book is sold under a title then has random pictures in it that don't relate to the title. (Yeah. I'm that guy. Sue me.) The pictures are mostly simple designs with big spaces for a small child to color in. They aren't highly intricate designs. In other words this is perfect for small children. The paper is thicker newsprint. It's good enough for crayons and colored pencils. But markers will bleed HEAVILY through to the picture on the other side of the page. My kid likes crayons anyway over markers, so this is not a problem for me at all. But if your kid likes markers, the paper just isn't thick enough for them.

My nephew is 5 and loves everything Cars. I gave him this coloring book for Christmas. He loved the stickers that were included, and started coloring right away. My other nephew loves super heroes, so I got him another coloring book. There was a little sticker envy going on but he got over it. The Cars book was cute, and was good for age 5. I recommend this if you want to be considered the favorite Auntie. :)

My three-year-old son loves coloring (for five minutes at a time) and he loves the Cars movie so this coloring book was great for part of his birthday gift this year! This Cars coloring book is good because it follows the story line of the original Cars movie and has one or two sentences on each page so you can read a little bit to your child while they color. I like the variety of pictures available. For most of them, your child could use a large crayon such as the Crayola Washable Crayons 16-pk. but some pictures are a bit more detailed so regular crayons, markers, or colored pencils

would work better. There are some activities throughout the book like word searches, mazes and other puzzles. These are too advanced for my son at the moment but older children would enjoy these. There is a page full of stickers at the front of the book. The book measures approximately 8 inches by 11 inches so the pages are fairly close to full-size pages. The pages are also perforated so you can tear them out and hang them up all over your fridge. I feel my son has had a lot of fun so far with this book and it will be a fun activity for him to use. He is still a bit too young to really be able to fully enjoy the book but I also think the book is priced reasonably enough that we could buy another one in the future. I would definitely recommend this coloring book for any Cars fan!

This coloring book also comes with stickers. However, they are rather small stickers and were a bit hard for my 2 1/2 yr old daughter to get off the page. Lots of coloring activities and for anyone with a child that loves Cars and coloring this is a good choice. The sticky stuff on the stickers isn't terrible so if you happen to find them on your wall, or cat, or fridge, or oven, or or or.....if you have kids you get the idea, they come off very easily and leave little to no sticky residue. My daughter likes to eat crayons so she has colored pencils instead and the paper is strong enough that she doesn't tear through it. Overall, good coloring book, worth the money.

I just ordered this as a Christmas stocking stuffer and it's "just ok" for that. I was hoping it would be more than just a flimsy-paper "regular" coloring book, with stiffer pages suitable for markers, but alas, it's not. It's just a plain-old coloring book. And that whole "Over 50 Stickers" thing... well, it's ONE page of tiny stickers. Nothing exciting or particularly fun about it.
