Happy Valentine's Day, Curious George

Synopsis

George and his friends celebrate Valentine's Day with decorating, baking, card making and some unexpected hilarity along the way! Just how much mischief can a curious little monkey get into when balloons, frosting, and glitter are involved? Fold-out flaps on each scene reveal lively surprises in this humorous celebration of friendship. Sparkly red foil shines on the cover and throughout the book.

Grade Level: Preschool - 3

Customer Reviews

Lives up to the rest of the George books. Best of all the Valentines books I purchased this year. Good for a variety of ages 2, 5 and 7 all like it. Very cute.

Nice Valentine's Day book. I'm a preschool teacher, and the 2-year-olds in my class loved this book. I let them take turns flipping the flaps. We had a ball! I recommend this book.

my grandson loves Curious George!this is an excellent bookone part has children decorating Valentine cookiesso to connect the book with an activityi had my grandson and granddaughters decorate Valentine cookies toothis is a wonderful book

My son is older and has autism. Curious George is actually one of the few things that makes him a bit verbal and gets him to react.

The color-pencil illustrations and harmless monkey mischief are just what you expect from a Curious George book, but be aware that the "story" here is only marginally related to Valentine's Day. V-Day is mentioned once at the beginning, and after that it's just George monkeying around. Curious George's other holiday books -- Merry Christmas, Curious George, Happy Easter, Curious George, Happy Halloween, Curious George, Happy Thanksgiving, Curious George -- all involve their respective holidays much more closely in the story. To the extent that the actual theme of the book matters to you, consider that in your purchase. Otherwise, this a perfectly fine book for younger kids, who particularly enjoy the lift-the-flat element.

I wanted to use this in a classroom but the physical size of the book is more "sit in my lap" - not "class, give me your attention." Also, the story/plot is basically non-existent. Not charming like the original Rey classics. Just some Rey illustrations superimposed on a story that is "eh" at best.

A very engaging, fun book for children under 6 years old. The little monkey is innocently making mischief, and the child who is being read to feels like he's older and wiser than Curious George.

I am a Curious George fan from years back and I want my great-granddaughter to be one as well. I think this book will be enjoyed by her and her mom. I sent it to her as part of her valentines day surprise from us. I have never seen a Curious George book that I didn't like and I really do like this one a lot. Curious George just makes me happy. I love to share him with little people.
