## Customer Reviews

We have used this book for three long car trips--800 miles each way. It has provided us with a wonderful journal to look back on in later years. In addition, the games, activities, and songs in the book help make a long car ride fun. I just bought four more to give as gifts. This book is wonderful for anyone, not just kids.

I bought 2 of these journals for my 2 kids to take on a recent cross-country trip to visit relatives. The journals have a page to record what happens each day, plus a whole section of travel games. The kids had fun writing in their journals every day, and now we can look back and remember all the fun we had!

I had hunted all over for a fun journal or scrapbook for my 2 boys to take on vacation with us to Walt Disney World. I wanted something easy enough for an 8 year old and a 10 year old to fill in on their own, yet have it be something nice enough to keep for a keepsake. I was very happy with this journal and gamebook! There were lots of games in the back of the book that I never heard "mom,

I'm bored!" It was broke down into days and I loved that there was a place for them to fill in the weather and their mood for the day! I'd highly recommend this to anyone looking for a fun way to record a vacation and have a great keepsake when it's done. My boys loved writing in it and took it to school for a vacation presentation to their class! The teachers loved the journals and asked where I go them!!

I bought this for my five year olds' trip to China. Although it is a little hard for him to fill out all by himself, most of the games and puzzles in it are perfect for him to do on his own. I think the activities will keep him busy on the plane ride and during down time. And the daily memories/weather/food, etc. will be fun to fill out together. I had to buy this on eBay because they had it for a fantastic price. If you can get your hands on this journal for a reasonable price, I would say it is wonderful for kids 10 and under.
