Customer Reviews

This was just what I needed to review Multiplication and Division facts. It can be practiced as a timed drill or self paced. At the end of each drill you can print out a page that shows the math facts that the current student needs to practice. This software requires Quick-Time, Microsoft Windows 95 or higher, 24MB Ram, 640 X 480 16 bit color video, 16 bit sound card 486DX-66MHz or faster processor, 40MB free disk space, and 4X- CD-Rom. I purchased this for home for my daughter and individual copies for our school's computer lab and Math classes. This software is set up to use competitively as well. Two players may play at a time and each receive their own print out when the game is over. GREAT SOFTWARE. My 9 year old loved it!

Loved these CD's for my 6-7 year-old at the time. Clear understandable format with fun rewards & time-out challenges to keep kid's interest in completing.
