## Customer Reviews

I've been doing this calendar for the last few years. I haven't opened my 2017 calendar yet, but I know the product very well. I'm quite sure this will live up to my expectations. These calendars are a great way to get your brain churning in the morning, or a great escape from the monotony of work. The "puzzlers" include a good variety of different ideas. It's usually at least a couple of weeks before you see the same type puzzle. You might breeze through some while others require scratch paper. For me, there are some that I flat out can't solve. On a positive note, when I look at the solution, I have always found the solution logical and correct. I've seen reviews of previous years where people swore they were wrong. As for 2014, 2015, and into August of 2016, I cannot recall encountering an error. Even if there was an error, the solution would still provide the method to resolve the problem. To be clear, there are several problems similar to those you might see on an IQ test; however, there are also puzzles that require knowledge of pop culture, historical figures, vocabulary, etc. There are lots of word problems with several steps in which your answers must

build off each other. One mistake, you're out. The only thing I find disappointing is that M-F has only one puzzle per day. Yeah, I know that's what the title says, but they're addicting and I want more. I wish they had a supplement version, "Part B" if you will, so I could have more than one a day. Saturday and Sunday are combined onto one page. For less than a nickel per day, it's an entertainment steal!-Update: Since I made this post, I've come across three errors.
