# Dear Bunny

## Synopsis

A little girl writes to her bunny, telling him all the things she likes when they're together, from how he blows on her porridge to cool it down to playing in the park and holding hands at the zoo. As they adventure the world, they see big things, small things, creatures, colours and wonderful surprises wherever they go, but at the end, the little girl realises that the thing she loves most is her bunny! With a simple message about learning to be grateful for the things we have, most especially our loved ones, this is an ideal bedtime picture book.

## Book Information

Hardcover: 24 pages

Publisher: Frances Lincoln Children's Bks (March 1, 2016)

Grade Level: Preschool - 2

## Customer Reviews

Dear Bunny...Written by: Katie CottonIllustrated by: Blanca GomezAppropriate for ages 2-6A visually appealing hardcover book with a cloth binding. Neutral, complimentary colors with gold detailing. This book is simplicity at its best. A sweet story about a little girl writing down all her favorite things in a letter to her bunny. My daughter really enjoyed this book and found it easy to relate to the main character in her love for the simple, everyday things that children find delightful. The illustrations are dream like and whimsical. A heartwarming story that any child with a favorite toy can appreciate.

This is a beautifully illustrated book with an excellent moral about being thankful for the little things. I gave it to my sister at her baby shower, and I am sure it will be a favorite for years to come. Unlike

many children's books, this one does not rhyme which I actually liked. It reads naturally...like a conversation between a child and their favorite toy.

I loved this book and so did my daycare kids. I loved that it was simple enough that the kids understood what was going on through out the whole story. It teaches about a good bond and manners on how to treat a friend.

I use this book a lot throughout the year as a way to remind my students about being grateful and how to stay positive. In a special education classroom things can get a little crazy. I like to give my students some quiet time and read aloud to them. I love this book because it teaches my students a very important lesson about appreciating the little things and finding the joys in our lives. After our time reading I like to take some time to talk to my kiddos and find out what they are grateful in their lives. Overall, this is an amazing book and my students and I absolutely LOVE it.

The illustrations in this book are wonderful. My little one was interested in the story line and the pictures on each page. He's 18 months old and happily sat through the entire book. The premise was a little bit odd to me and I am used to books with more of a rhythm or rhyme but my little one didn't seem to mind. I think I'll get more used to it as I read it over and over again, because it will surely be requested many times.

A sweet and simple story about a girl and her little bunny friend. It is positive and sweet and moves along nicely with lovely illustrations. If your child has ever had a stuffed animal "lovey" you can relate to their relationship and the comfort it brings. My 3 children and I enjoyed reading this heart-warming book.

A sweet read about a little girl and all of the things she loves about her bunny. My 5 1/2 year old daughter thoroughly enjoyed this book and requested it a few times for her bedtime story. The quality of the cover, binding, and illustrations are lovely and perfect for gift-giving. The story line and message is simple enough to be enjoyed by all ages.

Very sweet story with lovely, simple illustrations, some with foil that gleam. I bought this to give as a gift with a toy bunny I made.
