# EVEN SUPER HEROES SLEEP (DC Super Heroes)

## Synopsis

After busy days flying around the world, chasing villains, and keeping people safe, DC's beloved super heroes need to go to sleep. Super heroes in training will definitely relate to this charming bedtime book. Like the other bestselling DC Super Heroes board books (ABC 123, Colors and Shapes, Opposites, Busy Bodies, My First Book of Super Villains, and My First Book of Girl Power), Even Super Heroes Sleep uses DC's classic art to illustrate fan favorite characters getting ready to re-charge. Batman knows his brain works best after he's gotten a good night's sleep (Goodnight Gotham City!). Green Lantern needs his Power Battery, and Superman's super-strength fizzles out at the end of the day. Budding super heroes will appreciate that they, too need a good night's sleep if they're going to grow big and strong...

## Customer Reviews

My husband has been really into all the super heroes ever since he was little, as I'm sure a lot of boys were and probably still are. I really knew nothing about them until I decided to purchase my two year old a couple. I gave them to her for Christmas and she really took to them. We both really enjoy reading them together and have both learned so many name of superheroes and what their powers are. But what I love most about these books, is that its not really all about the superhero, they teach lessons, and they teach things like colors, shapes, words, counting, and body parts.

They really are wonderful books - I let my daughter choose one of these books every night and we read together at bed time. My toddler and I started collecting all of them and we both get really excited when they arrive in the mail. My daughter started to think that the mail man was just giving them to us as gifts, as if I didn't have to buy them lol. We have collected every one and they are releasing another one next week which we have already pre ordered and are super excited about. The books are a great price and arrive quickly. I hope they continue to make these books because we really love collecting them and enjoy reading them. She is even starting to remember the words and "reads" along with me!

All of these DC Comics books are fantastic. My son loves reading them, and my daughter (who is only 11 months) already enjoys flipping through the books and looking at the pictures. The illustrations are fantastic, the message is wonderful in all of them and this is no exception. They are ALL worth it to have.

Another DC comics hit This is an excellent bedtime book, vibrant colors, great size, and yes - Wonder Woman and Supergirl are part of the fun. We truly enjoyed this book, and I intend to buy more from this series for my little superheroes.

This book is so cute. I have twin cousins who are turning 4 and they are currently obsessed with super heroes. It's a tradition that I always get them a new book to add to their bedtime ritual and this is perfect.

I was admittedly stunned when my 1-year-old daughter remained so well engaged with this book. I have the option of reading the blurbs -- all of them -- page by page, or just reading the "good night" lines, depending on her patience. She loves the colors and imagery, keeping her interest as we do our nightly bedtime routine. The best part for me as a comic geek who has always loved this classic Super Powers-esque representations of the characters is that I am introducing my daughter early.

Our little superhero fights crime by day and sleep by night. This book is perfect for explaining even tough super heroes need to relax and settle down for a little bit!The format is that you are saying "Good Night" to each character one by one along with an explanation as to why he or she needs sleep too. For example " Batman works hard keeping Gotham City safe. He needs to rest so his mind stays sharp and focused. Goodnight, Batman". This allows the child to participate, because

they can see who is on each page and say good night to them (hopefully causing them to wind down as well). I love that it is a board book, so it can hold up to being chewed on and thrown across the room and it really is a perfect length. Perfect for comic book lovers and super hero lovers everywhere!

My son LOVES superheroes! When we started having serious "don't wanna" issues at bedtime, I decided to try this book. It's perfect! If Superman sleeps, then my 4 year old figures he will too. Love it!

Bought this today in a brick-and-mortar bookstore, and it's: (1) hilarious (2) quite well-written! (3) most importantly + hopefully: persuasive. I really liked seeing the female superheroes here, and they're presented in the same light as their colleagues: good, powerful, and needing their sleep. The helpful bookseller pointed out "Not a lot of superheroes of color," but we work with what we have. Highly recommended!
