National Geographic Readers: Swim Fish!: Explore The Coral Reef

Synopsis

Hooray! We're going to the beach! Do you know what kind of animals live in the ocean? You'll see fish swim, dolphins leap, and jellyfish float by. Told in simple yet lively text built with sight words and using picture icons to aid reading, National Geographic Pre-readers will enchant kids just beginning their journey with books.

Age Range: 2 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

My 2 year old LOVES this entire series of Nat. Geo Readers... I have purchased about 25 different titles, "pre-readers" as well as Level 1 & 2 readers. She loves them all & will ask for certain ones. The "pre-readers" level books are extremely simple & great because she memorizes the words & can "read" it herself. We love the more advanced ones too, because there is more information to talk about. I have learned quite a few facts, myself!) What a great series. The price is reasonable & pictures are great. These are really getting her interested in nature, animals & science... I will continue to buy these as they are released, for our collection!

A lot of discussion about movement- comparisons. Tons of colorful photos, informational text is age appropriate. Love it!

Great books for kids

Great

I purchased this book as a surprise for my 3 year old nephew who is obsessed with fish! He loves it! The pictures are great --- colors are so vibrant! I highly recommend this book!

We love these books! They aren't as annoying and boring as some kids books. We like learning the real facts!

Excelente

My kids love them...and they learn so much!
