Killer Species #4: Ultimate Attack

Synopsis

The action-packed series by Michael P. Spradlin returns. Each book covers a genetically engineered superpredator wreaking havoc on the environment. It's all come to this. Dr. Catalyst has had enough of Emmet Doyle's meddling. Time after time, Emmet and his friend Calvin Geaux have stepped in to ruin his plans, just when he'd released one of his genetically engineered killer species into the Florida environment. This time, Dr. Catalyst is releasing his most deadly creation yet. It's a terrifying lone hunter, bred to stalk and destroy one specific target -- Emmet Doyle.

I love reading this book to my grandchildren and they were full of anticipation waiting on this story saga. We had already read the first book and this was the grand finally of the story and it lived right up to the first book.

Great great great book series! I started reading Killer Species with my son and before you knew it I was reading them by myself too. Every book keeps you on edge wondering what is going to happen next and they actually include real information about the Everglades, so these books do have some educational value as well. However, Killer Species is science fiction, so not everything is factual, but

very exciting to read! I recommend all four of these books 100%!

My son started reading the series in 4th grade and now going into 5th grade he still loves them. I haven't read them but if it gets him reading I'm for it.

really good book I loved it. it's a little hard to understand if you have not read the series. other than that I'm stoked about this book. but I do recommend the other series books as well.

I loved this book so much, I couldn't put it down. The book was brutally awesome. Recommended for kids who either read the Killer Species books or are in 4th to 6th grade.

This is a great finale to an amazing series, that I would recommend to anyone who is interested in evil scientists, FBI agents, and mutant animals with lots of teeth.

Awesome awesomeness awesomely amazing cool radical rad best book I. History of the entire universe Dr.Catalyst is Philip Geoux and tries to kill Emmet

First series my son has loved! Sad to see it end just after 4 books!!! We would love to read more about Emmet, Calvin the Newt and Dr. Catalyst!
