Bath Time!

Synopsis

Hey! Hey! What do you say! It's time to take a bath today. From the irrepressible Sandra Boynton comes an irresistible storybook for bath time. Bath Time! is waterproof, nontoxic, completely baby-safe and it floats! It's a classic tale of pig meets paint. Spattered with colors from a long day at the easel, the pig takes to the tub, washcloth in hoof, determined to get all pink and clean. Gently scrub from top to toes. Now I kiss you on the nose. All clean! (Squeak squeak!) On the last page, the snout has a bound-in squeaker. Get it? Squeaky clean?

Customer Reviews

Workman Publishing wants Sandy Boynton's fans (who are legion) to know that we deeply regret the production problems that afflicted the first printing of BATH TIME (2007) - and we want them to know that these problems were corrected in subsequent printings. We moved the production to a different manufacturer; the inks now are fine, the covers now are fine, and the contents remain deserving of five oinks. If you take a look at the comments for BARNYARD BATH - which was released in 2008, a year after BATH TIME - you'll see that there are no complaints. Only praise. The quality problems have been solved. You can order BATH TIME and BARNYARD BATH today with confidence that the books will hold up.

I bought Bath Time! from two weeks ago. The book is cute, but the cover has already fallen off (in two weeks!). I called the publisher to ask for a replacement, but no one has returned my call. I would

recommend going with something else, like Quacky and Hoppy (ISBN 0764193775) which is super cute and much higher quality.

This was a great fun book for the first few baths. Then the ink started to come off. Then the pages came apart. Great idea, poorly executed.

We received this book as a gift nearly seven years ago. We have since given it as a gift numerous times because our daughters love it. It has lasted through many, many baths, and my 3-year old won't take a bath without "reading" it to her Barbies.

The book is only 4 pages, so much shorter than we thought. However, its colorful, and has held up well to plenty of baths. My son still enjoys giving it a quick read, and sometimes uses it as a floating platform for other bath toys.

My son loves bath time and really loves reading books. Put the two together and he is happy as can be! We received another bath book "Barnyard Bath" by Sandra Boynton for a baby shower and loved it. We would find ourselves reading it multiple times throughout the bath. I was happy to find another book. I like these books more than the ones often found in stores because they are big have bright pictures with an actual story and they float. A must have in my opinion.

My 10 month old son ADORES this book. He "reads" it (technically chews on it) every single day. We don't use it in the tub but more as a fun book to read that is safe and gentle if he swings it around and bonks himself in the head with it.

My 15 month old son loves this bath book. He loves books in general, so when I saw this book I bought it for his one year birthday. He loves it!!! We read it in the bath every night. He loves to point at the pig and the pictures of the toys on the second page. It also has a squeaker in it, and he loves when I squeak it when we get to the last page. It is a short book, but he is not bored by it. He likes to play with it in the bath along with his other bath toys. And it is good quality - we have had no problems with it coming apart, and we use it in the bath every night.
