Disney Bunnies Goodnight, Thumper!

Synopsis

With simple text and sturdy board pages, these two new titles in the Disney Bunnies line are ideally sized for toddlers' little hands and even Easter baskets. In these stories, Thumper is not quite ready to go to bed, and he learns to count to ten. Full color.

Age Range: 2 - 4 years

Grade Level: Preschool - Kindergarten

Customer Reviews

Adorable! Our 1 year old son loves his Thumper books. This book is strong enough to withstand baby's rough handling and short enough to keep their attention. The story is very sweet about Thumper finally getting to sleep after witnessing the other animals settling down and he himself finally getting sleepy to snuggle with his family. I think we will be reading this book for quite some time along with our other books. Another cute Disney book for our collection.

I purchased this book for my 2 year old nephew as part of a birthday gift with another book and a set of pajamas. The book is adorable! I'm known in my family as being the Disney nut, so everyone expects Disney gifts from me and I love Thumper! The book is a quick and easy read so it's great for bedtime or little ones that are just learning to read. The illustrations are so cute! Definitely a fun little board book.

This book is wonderful! I've gotten a lot of books for my baby and this is by far my favorite one for reading to her. She's still too little for the touch and feel books or anything that she has to interact with...but I wanted to start reading to her. This has a cute story and beautiful illustrations. It's great for reading to her now and it will be great when she is older and able to follow along with the story, and it will be great even when she starts reading on her own. This is a book that she can grow with and I plan on purchasing more books in this series. UPDATE 4/20/16: My daughter is 17 months old now and this is one of our nightly bedtime stories. This is the last one we read every night before bed and my daughter loves it. I am so happy that I made this purchase.

As with ALL of the Disney Bunnies books, this has gorgeously illustrated pages. Unlike many children's books (many which are overly stylized or simple to look at it) this is a lush, beautiful world that Thumper lives in and a joy to look at for parents. It's a simple story of a bunny who cannot sleep as he watches all of his friends and family fall into slumber, and finally succumbs to sleep himself. The book is of a very sturdy, thick quality and has a glossy sheen. Very nicely done and the simple and sweet story that encourages bedtime is a nice book to have on hand before bedtime. My 3 1/2 and 2 year old girls both love this one.

My 4 month old daughter loves the Thumper stories - she enjoys the pictures and smiles as I read the story. This would also be great to read to an older child before bed...it is very cute. It is a short story, but that works well for my baby.

we nicknamed our little one Thumper, and how can I miss this book and not get it earlier? already fell in love with this book by just previewing it, and really looking forward to reading it to our 2.5yo Thumper at night since he is indeed mischievous ;)

Message: simple yet great level of content for a toddler
Images: excellent match to movie
Construction: good thickness and durability for a tossing from bed to floor to shelf
Price: 4 for 3 (25% off) or better sounds about right

My two year old loves this book and asks that we read it every night. The repetition of telling the animals good night and sweet dreams seems to be the perfect finale to her day. She settles down and gets heavy eyes every time!
