Animals In The Stars Lacing Cards

Synopsis

Lace the stars together to create 10 familiar animal constellationsâ€”then, turn out the lights to reveal the glow-in-the-dark animal formed by the stars! From the Great Bear (Ursa Major) to the winged horse Pegasus, these durable lacing cards encourage hand-eye coordination and actively engage muscle memory through hands-on, tactile learning. Memorize the shapes of the constellations, the names of their brightest stars, and the mythology behind each constellation, before going outside to view them in the real-life night sky!

Book Information

Age Range: 3 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

These are a wonderful Activity for my nearly five year old twin grandsons; unique; 'hands-on;' the cards helpDevelop eye-hand coordination, a meaningful precursor to writing and reading; they also promote number awareness.The boys LOVE that the cards glow in the darkThey find the action of stringing itself VerySatisfying.

What fun! My granddaughter is thrilled that something she made with her own hands glows in the dark. Then we stayed up to find the Great Bear (the big dipper) in the night sky and read some stories from the Greek myths. This is a great gift that makes learning so much fun. JC

This is a great product! My 5 year old LOVES space and was immediately taken with lacing the

cards and creating different constellations. My 3 year old got involved as well since they loved that it glowed in the dark. They kept running into the bathroom to see what the constellations looked like all lit up. Very cool. This is a great learning activity for kids...keeps them occupied, interested, and engaged...all while learning! What could be better!!! Highly recommend!

These cards glow SO clear. And each has the story behind the constellation. My children LOVE working on these cards and get lost for hours going to town on lacing.
