Kids of different ages can enjoy the coloring book. Pages are 8.5 by 11 and there are over 40 pages/illustrations in total to color. I don't know the names of all of them but I spotted t-rex, stegosaurus, triceratops, pterodactyl and some other familiar looking ones among the pages. Best part is there is a link to a free pdf so you can print out another copy for the kids to color all over again.

I love that this coloring book is Made in the USA. The pictures are very clear, and large enough for little ones to color. I would have liked to have seen more scenic dinosaur coloring pages, versus just a dinosaur on a page, but that is more for myself when coloring alongside my son (he doesn't care). I also would have liked to see perforated pages, especially at this price point. Those would be my suggestions to make an awesome coloring book that much better! Thanks for the great quality, and for being made in the USA!

My 2 1/2 year old daughter loves this coloring book! The illustrations are clear and really cute. I like that the pages are not too busy, most have one friendly dinosaur for her to focus on. The cover is strong and the paper inside the book is good quality. I also really appreciate that you get a free printable pdf version.

Awesome coloring book. Many cutsy and simple pictures as well as a few more complex ones. I used this to help with stress relief and I believe it worked very well.
