# Paint By Sticker Kids: Create 10 Pictures One Sticker At A Time

## Synopsis

Move over, coloring books! Here's an entirely new craft that kids will love: Paint by Sticker Kids. Paint by Sticker Kids is the same compelling craft first introduced in Paint by Sticker, but just for kids! The book includes everything you need to create 10 bright, playful, full-color illustrations: illustrated templates printed on perforated card stock, and 10 pages of stickers to fill in and create the artwork. The fun, vibrant images are rendered in a low-poly, a computer graphics style using geometric polygon shapes to create a 3-D effect. As in paint-by-number, each template is divided into hundreds of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next and voila! It's a rocket ship blasting through space. A Tyrannosaurus rex prowling his domain. A pickup truck hauling its load. A friendly toucan hanging on his perch. Kids will love watching these pictures come to life. Plus each is suitable for framing or the fridge.

## Customer Reviews

I bought this book for my 8 year old son. He has had a difficult time in school with his handwriting so the teacher suggested we work on his dexterity and do activities to improve his fine motor skills. This book really hit it out of the park. He loved the 3D effect. It is easy enough for him not to get frustrated but not so difficult that he gives up. I feel like the age range should be 7 - 10, I don't think a

five year old would have the patience to complete the pictures. Plus some of the stickers are pretty small. The book includes two dinosaurs, bunny, dog, castle, shark, bird, spaceship, truck, and lion. We enjoyed it so much I bought the adult version for myself.

The boyfriend's daughter loved this. She is 7 and it's perfect for her age. It's not too difficult for her to do where she would get frustrated but not too easy where it's boring. The pictures are fun and age appropriate. Very cute

I got this book as entertainment for a recent trip that involved long plane rides, hoping it would give me something other than the typical coloring or iPad time. My 5 year old son really enjoys these sticker projects! It's great fine motor skill work, though I'll say he got frustrated on some of the particularly small stickers and not being able to get them off his fingers, lol. Do the pictures look perfect? NO. But it's working on good coordination skills...and Mommy just might have been happy for the excuse to help because I like stickers too, hehe. I noticed one person said the stickers fall off immediately - that has not been the case for us, BUT, the stickers are pretty easy to peel back off if your child puts it on there particularly lopsided and wants it fixed. It's pleasantly forgiving that way. Another interesting "side effect" of this has been he's finally remembering what 40s, 50s, 60s, etc are...before we were lucky if he remembered anything past 30...but without the frustration of "I CAN'T REMEMBER!!!!" Ha! This is a great purchase, and I can't wait to get the adult versions for myself. :-)

This is a great book! My 5.5 yo really enjoyed it, although he did get discouraged a few times when his fingers couldn't get the stickers to line up just right. It was the perfect addition to our road trip!

I like it because it's not a five minute project. These pictures use lots of stickers and are more challenging than most. The first pages are easier. But the 8 year old I bought it for started on the hardest one. Lol He enjoyed it and has completed three so far.

I bought this for my kids as a car toy for our recent trip. My girls are 9 and 11 and they really enjoyed playing with this book in the van. It took time and was intriguing enough for them to keep working to finish it. Definitely a winner for car trips!

My cousins (ages 5 and 11) loved these! Just loved them. They had read union we got them at

Walmart so I decided to look through them so I haven't originally got them at Walmart so I decided to look for than anything in the zone so I haven't tried this exact seller before but clean and simple they are easy to do, fun, cute and they loved doing them...without having messy paints

Ordered for my 8 year old son's birthday to use for an upcoming trip. My son really enjoyed the paint by sticker book and can't wait to complete more of them.
