Customer Reviews

The book is simple enough for someone that just likes to skim through a book and not read, but with this one, you have to. I couldn't put it down because the information in it was so exciting!

This is a great book. It has a lot of information to learn more about Forensic Science. I will recommend to my friends

Though this book was sold as NEW. There was a fair amount of damage done to the cover.

I bought this as a gift...no complaints.
