Age Range: 7 - 8 years

Grade Level: 2 and up

Customer Reviews

I have compared many math workbooks at the second grade level. This one is outstanding. It presents serious math content in interesting games/drills for all second grade topics, such as addition, subtraction, estimation, measurement, number sense and place value. It strikes a good balance between math concepts and fun learning. It has a lot of fun themes including the beach, the neighborhood, monster math and so on. My son really enjoyed it. When kids have the interest, they become smarter. Practicing math doesn't have to be painful. When my child takes the online

Beestar weekly tests, he often ranks high among his peers. I give credits to this book. Highly recommend.
