Kumon Step-by-Step Stickers: At The Zoo

Synopsis

Designed specifically for children aged 2 and up, the Step-by-Step Stickers series is the first form of workbook for them to use, in the most practical and enjoyable way possible. The colourful and easy exercises provide toddlers with the opportunity to practice motor control and spatial reasoning skills while having fun. Step-By-Step Stickers: At The Zoo features bright and playful scenes featuring children's favourite and most recognisable animals. Each page advances a child's motor control skills slowly so that frustration will never impede a highly entertaining activity.

Customer Reviews

This is perfect for our little toddler. She loves the stickers, and the pages are nice and thick. The stickers are very durable. They are not so sticky you can't unstick them from themselves but they are plenty sticky enough to stick to the page. The activities at the front of the book are pretty much "get the sticker on the page" type, but progress in difficulty. Be aware this is designed for an adult to help the child with the activities, you don't just hand them the book.

Kumon's Step-by-Step Stickers: At the Zoo is a wonderful beginners workbook for toddlers that are just getting ready for preschool. It helps children learn to follow directions with simple, yet fun activities. Each page is colorfully illustrated and the child is given an average of three stickers for each page/activity. I bought this workbook for my son, who is two and a half, to start with. I really wasn't sure if he was ready to hold still long enough or follow directions well enough to do this, but

he had a blast! Each activity was so fun that he didn't have any problem holding still long enough to place his stickers. We then made up a story to go with the picture and we both enjoyed ourselves. He was so proud to have done "school work" like his big brother that he had to show everyone his hard work. I will definitely be buying more workbooks from Kumon in the future and would recommend this product to any parent of a small child. Even our 8 year old said it looked like fun!

This was perfect for my 2 yr old grandson! We sat together and read through a few pages and he got to count and place stickers that were easy for him to peel off by himself. He loved it and didn't want to stop!

My MIL got this for my son and he loved it so much I ordered one more and he still loved it. We went through the whole book in one sitting and he still asks about the stickers. He got much better at placing stickers and this is a wonderful activity to get your child talking especially if they love animals. I may have to get another book and take the time to pull pages out of the book so the book will last us a while longer. I just wish the pages were easier to take out! Even if I didn't take out the pages, we found it kind of annoying to keep the book flat when we got farther into it.

These Kumon sticker books are great for my 2 year old. It keeps her actively engaged for a while. It take a little guidance from a parent to match the proper sticker pages with the activity pages.

Bought this one and "trained and planes" twice already. My 2-yo loves them. Will probably buy again. To the publisher: please make more like these! We need greater variety.

My 2 and half year old LOVES doing these. He has gotten so good at placement. I continue to buy these for him. He gets so excited to do a sticker craft.

I love these sticker books! My almost three-year-old grandson and I have many hours of fun doing them!
