## Customer Reviews

This book easily flows, read it in one seating. You get the brilliance of this first black president endowed by GOD of his intelligence. An excellent to have, as well, is Speak Tagalog, A Basic Primer by Juanita de Guzman Gutierrez on sale at . This book will lead you to global friendship and understanding, quick and easy step by step learning at your fingertips. Four kids-friendly books, also by Juanita de Guzman Gutierrez are The Blessed One, Chosen You Forever, The Just One, Full of Grace. Fun and easy to learning-to-read for our children. Enjoy them all at .

This Barack Obama story is very good for young readers and covers enough details to show the ups and downs in his life. His spirit of perseverance will be an inspiration to the next generation.  
HOPE :- )

Shana Corey has written another perfect little book for younger readers (and even adults). There is superb craft in the text and it is filled with great facts (obviously well-researched). The fact that quotes were gleaned right from the study of Obama's numerous speeches makes this book a great teaching tool at any level. The illustrations are vivid and "authentic" looking. I love this little book - and you will too. Look for a wonderful looking couple with two cute little boys in the illustrations - this is the author and her husband and two boys. No page number here - it will be more fun for you to search! Outstanding!!! Step into Readings are so often so well-written. The structure and style of the Steps 3 and above are usually worth studying for craft and structure - and even researching methods! Great great great stuff! Bravo!

I bought it because they had president topic at school. A nice side effect was that because he always looked different from other children, my daughter realized that he felt like her being not blond and blue eyed....

What doesn't bother to tell you is that this book can't be read on a basic Kindle, unless you use a magnifying glass. It is a total rip-off. Yea, I didn't pay much for the book, but I still paid infinitely more than it was worth. Amazon should be ashamed to treat its customers so poorly.

I bought several Obama biographies for my grandchildren during the election months this fall because I wanted them to have the opportunity to learn more about their president. I also took the book to school when I volunteered, and it seems like a good book for students in second grade or older. I was also pleased to see how excited even younger children were to attempt to read the book. They recognized President Obama's name and picture and wanted to learn more! The interest level was strong, and I recommend the book.

This is a very good book to introduce young people about the life of President Barack Obama. It would be perfect for a first grade reader, but it would also be appropriate to use the book as a family/classroom read aloud.

Bought this for my daughter who was in the 3rd grade and doing a report on Barack Obama. It was easy reading for her and useful.
